1- Gamefi.org

GameFi.org is an all-in-one discovery gaming hub for games, guilds, and metaverses.

GameFi is the comprehensive hub and one-stop shop for blockchain games, serving game studios, players, traders, and investors.

The only game-specific launchpad, designed to be chain-agnostic.

GAFI stakers have the ability to propose the direction of the ecosystem.

2- **Solanuim.**

Solanium is the go-to platform for the Solana blockchain. Participate in public raises of top tier projects, stake your tokens, trade on our DEX, participate in our governance and join our active and growing community.

You can stake your SLIM or SLIM-LP tokens to receive xSLIM. xSLIM qualifies you for fee distribution and airdrops, unique pool benefits (depending on your Tier), governance voting and much more. Through our staking mechanism that combines your amount of tokens

staked together with your own specified lock time we aim to be the most fair launchpad in existence.

Solanium's mission is to make Solana accessible to anyone, with a strong focus on UI/UX and strong partnerships and integrations in the Solana ecosystem.

3- **NFTb.**

As the world of Game-fi continues to emerge as a way for Gamers to engage with their favorite games and earn income, there needs to be a platform to help them manage their digital assets (NFTs).
